

Clinical Guidelines for Full-Arch Rehabilitation of the Edentulous Patient

ON-DEMAND WEBCAST

PROGRAM DESCRIPTION:

Patients with debilitated dentition often seek rehabilitation to quickly regain their confidence and quality of life. Immediate full-arch restoration can be an excellent solution for meeting patient demands and expectations. This program will provide an overview of this treatment modality, including a step-by-step, practical approach to delivering a provisional full-arch prosthesis on the day of implant placement, as well as the steps necessary to develop an aesthetic, functional definitive prosthesis.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Understand the scientific basis for immediate occlusal loading of edentulous jaws.
- Use a decision tree to determine which patients are the best candidates for immediate full-arch therapy.
- Develop a plan for fabricating an immediate full-arch provisional restoration with the aid of the DIEM[®] 2 Guidelines.
- Understand the steps necessary to plan and fabricate the definitive prosthesis.

Steven J. LoCascio, DDS

Dr. LoCascio received his dental degree from Louisiana State University School of Dentistry in New Orleans and completed a General Practice Residency at the Medical Center of Louisiana, Charity Hospital. He returned to the School of Dentistry at Louisiana State University where he was awarded specialty certificates in Prosthodontics and Maxillofacial Prosthetics. Dr. LoCascio is a Clinical Associate Professor in the Department of Oral and Maxillofacial Surgery at the University of Tennessee Medical Center in Knoxville, Tennessee and a Clinical Assistant Professor in the Department of Prosthodontics at Louisiana State University, School of Dentistry, in New Orleans, Louisiana. Dr. LoCascio maintains a private practice limited to prosthodontics and maxillofacial prosthetics in Knoxville, Tennessee.
