

Guidelines Regarding Grafting and Implant Placement for Comprehensive and Aesthetic Tissue Management

ON-DEMAND WEBCAST

PROGRAM DESCRIPTION:

This program will present the biologic events regarding socket sites post extraction of teeth. It will include a classification of socket and alveolar ridge defects, as well as decision making regarding the best time to graft, and the criteria for graft material selection; the biology of healing for different graft materials and the lengths of time required for healing. This program will be of particular interest for general practitioners regarding diagnosis and assessment of clinical conditions and whether or not the patient needs to be referred to a surgical specialist. The goal of comprehensive treatment will be to meet individual patient needs, with excellent sustainable esthetic and functional outcomes. Numerous clinical cases will be illustrated.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Identify potential complications associated with tooth extractions regarding osseous and soft-tissue anatomy.
- Describe the biologic principles associated with hard- and soft-tissue healing, with and without grafting.
- Describe the benefits and limitations of immediate versus delayed implant placement with simultaneous grafting and be able to implement the most appropriate treatment option.
- Have a working knowledge of the benefits and limitations of the various kinds of products commercially available for grafting procedures.

Robert del Castillo, DMD

Dr. del Castillo received his dental degree and his Certificate in Periodontics from Tufts University, School of Dental Medicine. He has served as an Adjunct Professor, Department of Periodontics at Tufts University School of Dental Medicine and a guest lecturer at Maryland University Dental School. Dr. del Castillo is affiliated with the American Academy of Periodontology. He maintains a private practice, limited to periodontics with a strong emphasis on implant and regenerative therapies, in Miami Lakes, Florida.

ADA CERP®

Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

Zimmer Dental Inc.
Nationally Approved PACE Program Provider
for FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
01/01/2019 to 12/31/2020
Provider ID# 208673

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of value" items include meals and continuing dental education credits. *The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA, the reportable value per credit hour is USD \$50.

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
