

Step-by-Step Full-Arch Reconstruction Utilizing the RevitaliZe® System

ON-DEMAND WEBCAST

PROGRAM DESCRIPTION:

Dental implant therapy has evolved and changed drastically over the years, but particularly over the last decade. With the development of new technology and better understanding of bone physiology and regeneration, clinicians can deliver immediate implant reconstructions with a high degree of predictability. The Zimmer Biomet RevitaliZe Patient Solutions approach is a graftless, affordable, and predictable treatment modality to deliver both functional and esthetic full-arch dental implant rehabilitation. This program will provide participants with a comprehensive understanding of this protocol and its clinical applications.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Discuss the general concepts of full-mouth implant rehabilitation using the RevitaliZe Patient Solutions system.
- Describe a step-by-step approach to treatment both surgically and prosthetically.
- Understand the anatomic and physiologic principles associated with this treatment modality.
- Comprehend the principles of immediate implant loading.
- Describe pertinent literature related to immediate full-mouth implant rehabilitation.

Guillermo Chacon, DDS

Dr. Guillermo Chacon was born and raised in San Jose, Costa Rica. He graduated from the University of Costa Rica with a Doctor of Dental Surgery (DDS) degree in 1990. He then completed a mandatory one-year internship in community dentistry for The Ministry of Health. After that, he went into private practice in general dentistry in his native city. He was accepted into a two-year fellowship in Oral Implantology at the University of Miami/Jackson Memorial Hospital in Miami, Florida (1993-1995). He then spent a year at The Ohio State University (1995-1996) as an intern in Oral and Maxillofacial Surgery. In 1996, he entered a four-year training program in Oral and Maxillofacial Surgery at the University of Washington, Seattle, WA, which is known around the world as a leader in orthognathic surgery, facial trauma reconstruction, and implant innovation. He then joined the full time faculty at The Ohio State University in July of 2000 and in 2002 was appointed as director of the residency training program in oral and maxillofacial surgery and Department Chairman from 2006-2008. Dr. Chacon maintains a faculty affiliation in the Department of Oral and Maxillofacial Surgery at the University of Washington as an affiliate Associate Professor; He lectures nationally and internationally on a variety of topics, including dental implants, bone regeneration, trauma, and facial cosmetic surgery.
