

ZBI CLINICAL

Maxillary Guided Bone Regeneration for Full-Arch Implant Rehabilitation

ON-DEMAND CE VIRTUAL WEBCAST

PROGRAM DESCRIPTION:

In this program, guided bone regeneration of the maxillae will be performed demonstrating bilateral lateral window maxillary sinus lifts and lateral ridge augmentation techniques, in preparation for full-arch implant-supported rehabilitation. Participants will view clinical procedures performed by a highly-skilled clinician(s) who will explain and showcase advanced surgical and restorative techniques, helping participants to implement them into their practices. Given the cutting-edge nature of the procedures and services presented in this program, participants will be given the ability to watch the clinical procedures, then participate in an interactive question and answer session with the speaker about the techniques performed.

PROGRAM OBJECTIVES:

At the completion of the program, participants should be able to:

- Evaluate patients for immediate vs. delayed maxillary full arch dental implant rehabilitation.
- Review maxillary sinus classifications.
- Describe one method for maxillary sinus augmentation.
- Have a working knowledge of performing lateral ridge augmentation.

Michael J. Hartman, DMD, MD

Dr. Hartman received a dental degree at Temple University School of Dentistry in 2002. He then completed a six-year dual degree in oral and maxillofacial surgery residency at the University of Maryland Medical Center, earning an MD in 2005 and completing his residency in 2008. His education and training at UMMC involved dental extractions, maxillofacial oncology, major craniomaxillofacial trauma at the R. Adams Cowley Shock Trauma Center, microvascular reconstructive surgery, orthognathic surgery, and third molar extractions. Dr. Hartman returned to Central Pennsylvania in 2008 where he worked in private practice in Camp Hill for seven years, then opened his solo practice in Mechanicsburg with an emphasis on dental implant therapy and treatment of oral lesions.

ADA CERP®

Continuing Education Recognition Program

Zimmer Biomet Dental is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

REGISTRATION AND CANCELLATION POLICY: Registration is limited to practicing clinicians. Zimmer Biomet Dental reserves the right to cancel or substitute this program.

TRANSPARENCY REPORTING: All payments and "transfer of value" items provided to health care providers will be reported as required by federal and state laws and regulations. "Transfer of value" items include meals and continuing dental education credits. *The fair market value of this complimentary program will be reported as required under any transparency laws applicable in your region. In the USA the reportable value per credit hour is USD \$50.

Zimmer Dental Inc.
Nationally Approved PACE Program
Provider for FAGD/MAGD credit.
Approval does not imply acceptance by
any regulatory authority or AGD endorsement.
01/01/2021 to 12/31/2022
Provider ID# 208673

DISCLAIMER: Participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy. The information in this course is of a general nature and does not represent or constitute medical advice or recommendations and is for dental education purposes only. Zimmer Biomet Dental does not practice medicine or dentistry. Each clinician should exercise his or her own independent judgment in the diagnosis and treatment of an individual patient, and this course and information does not purport to replace the comprehensive training clinicians have received.
